

Part 2 – Claiming WAX on Bloks.io

Once you've successfully logged into the wax.bloks.io website you can easily claim your WAX rewards. More information can be found here: <https://wax.io/blog/earn-more-wax-introducing-wax-block-rewards-staking-and-voting-guilds-and-more>

Claim GBM Rewards

Step 1 – Click on the “Wallet” region on the top navigation bar (also known as the nav bar)

Step 2 – Click on the “Claim GBM Rewards” region on the left-hand nav bar

Step 3 – Click on the “Claim Genesis”, “Claim Vote” or “Claim Both” button. Attention Ledger users. As of this writing my ledger would freeze up when selecting the “Claim Both” button. You should claim genesis and vote separately.

Step 3

Claim Genesis Claim Vote Claim Both

Step 3 – Approve the transaction on your Scatter wallet.

OR

Step 3 – Approve the transaction on your Ledger

Step 4 – If your claim was successful you will see a notification at the bottom of the page

Step 5 – Verify your Liquid Balance. Your liquid balance is your WAX token balance that has not been staked. It's best to stake your liquid balance to earn more WAX tokens.

Fun Apple Trivia: The original Apple logo was designed by co-founder Ronald Wayne, who worked at Atari along with Steve Jobs and Steve Wozniak, and is nothing like the one the company uses today.
